BUILD REALISTIC LENS FLARES

ULTRA-FAST & EASY TO USE

TRUE COLOR
UP TO 32 BPC

ONLY
139.95

PLUG-INS BY
VIDEO COPILOT

The screenshot displays the Optical Flares software interface, which is designed for creating and editing lens flares in After Effects. The interface is divided into several main sections:

- Preview:** A large central window showing a 3D lens flare effect. Below it, a 'Stack' panel lists the components of the flare, including 'Glow', 'Streak', 'Sparkle', and 'Lens Circle', each with its own set of parameters.
- Editor:** A panel on the right side containing 'Common Settings' (Brightness, Scale, Stretch, Distance, Offset, Aspect Ratio) and 'Colorize' options (Color Source, Color 1, Color 2, Gradient Length, Gradient Offset, Reverse Gradient).
- Stack:** A central panel showing a list of flare objects in a stack. Each object has a name, a value, and buttons for 'HIDE' and 'SOLO'. The objects include 'Hoop', 'Spike Ball', 'Streak', 'Glow', 'Multi Iris', 'Iris', 'Ring', 'Glint', 'Sparkle', and 'Lens Circle'.
- Browser:** A panel on the right side showing a grid of various lens flare presets. A 'Preset Browser' tab is active, displaying a collection of different flare styles.

A large watermark 'mac-torrent-download.net' is visible across the bottom half of the interface.
